8 October 2009

Dear Parent/Carer

Thank you for visiting Chipping Sodbury School's Open Evening recently. I hope you found it an interesting and useful experience.

Whilst an Open Evening shows much of the school's work, it cannot completely portray how school is for students day to day.

If you have not yet made your choice about your child's future schooling, or are undecided, I extend an invitation to you to visit us to see the school at work on a normal school day. I am confident that you will see that students work and learn in an exciting and engaging way and that their experience at school reflects our values of integrity, responsibility, respect and aspiration.

Although examination results are an important part of a child's learning, this is only part of what we offer. There is an extensive range of extra-curricular opportunities, pastoral guidance and support recognised in our most recent Ofsted report. As a technology school, our Design and Technology department provides a wide range of opportunities judged as outstanding by Ofsted.

You will be aware that the school is in the middle of a major building project, which by next summer will provide sports and PE facilities that will be second to none in the area. This will be a key part of the school's future provision for not just students but the community as a whole.

A short film about the school is available on our website , www.chippingsodburyschool.com or alternatively we have a small number available on DVD. Please let us know if you would like a copy.

Thank you for your interest in our school.
Yours sincerely

Philip Lidstone
Headteacher
