## Consent for processing of biometric data

We use our students' biometric data for **cashless catering** purposes. Having a cashless school is a security measure for both the school and its students.

Catering payments are controlled by your child's fingerprint.

The biometric data is stored securely within the school's servers, which are based in the United Kingdom. Access to the stored data is restricted to kitchen staff, IT personnel & appropriate support staff; it is deleted as soon as the student leaves the school.

We are obliged to inform all those with parental responsibility of our use of biometric data, although written consent is only required from one person with parental responsibility, as well as the student. If there is any reason why we should not inform all those with parental responsibility, please advise us below.

You may withdraw your consent for the use of biometric data at any time. If you have any queries in this regard, or wish to withdraw your consent, please contact the school office, or the school's Data Protection Officer: [i-west@bathnes.gov.uk](mailto:i-west@bathnes.gov.uk)

Student Name		Tutor Group	
--------------	--	-------------	--

	YES, we consent	NO, we do not consent
I give my permission for the school to use my child's biometric data for the purposes of cashless catering only. I have read and understood the information provided on this form.		

Name of person completing this form			
Relationship to child			
Signed		Date	
Signature of student		Date	

Please list all who have parental responsibility	
Is there any reason why we should not inform the other people with parental responsibility about our use of biometric data?
